Title: FLOOR EDGER ADJUSTMENT TOOL***AMENDMENT***

In response to your non-final office action of January 29, 2004 please amend the above-identified application as indicated below.

**1. IN THE CLAIMS:**

1. (Currently Amended) A tool for adjusting the position of a set of support wheels for a floor edger, the edger having a rotatable disk with a support surface for supporting a sanding element, the tool comprising:

a body, the body having a leading end, a mid-portion and a trailing end, the body further comprising a pair of legs joined at an angle to one another near a vertex point, each of the legs having a first end and a second end, the first ends of the legs being closest to one another near the vertex point, the vertex point being near the leading end of said body, the second end of said legs defining the trailing end of said body;
